

WIPER BLADES

Function

Wiper blades are used to wipe off the rain or snow from your windshield to ensure safe visibility in rainy or snowy conditions.

Replacement timing

Wiper blades are an important component for ensuring safe visibility. An improperly wiped windshield can affect your visibility. Ensure peace of mind and problem-free operation by replacing them regularly before you notice any of the following symptoms:

Symptoms	Actions	
<p>Smears</p>	Clean the edges of your wiper rubbers.	
<p>Fogging</p>		
<p>Streaks</p>		
<p>Chattering</p>		Replace your wiper rubbers or wiper blade assemblies.
<p>Faulty contact</p>		Replace your wiper blade assemblies.
